

## HOW TO GET THE MOST FROM **ULEAD JUNIOR** FACILITATION CARDS

These cards have been tested and developed as a multi-faceted tool for educators and youth workers in the classroom and beyond.

They can be used for student engagement, growing social and emotional skills, creative teaching in STEM and academics, fun and more!

Many of the card activity ideas have been created by educators and youth workers just like yourself. The deck has been designed to be generative and easy to integrate into your classroom.

Check out the other side of this card for a few keys to success that have made this deck such a dynamic tool. Read through the remaining instruction cards for activities that use each card element, and go to [uleadinc.org/cards/](http://uleadinc.org/cards/) for a complete list.

## **PLAY!**

We believe there's power in play. These cards invite purposeful play that opens opportunities for learning, deeper engagement with others, and a life filled with joy. Try them! Use them! Play!

## **KEEP IT MOVING!**

Timing is everything. Whether with partners, small groups, or whole classroom activities, adding time limits can increase emotional investment while ensuring activities don't drag out.

## **CHANGE IT UP!**

If an activity isn't working for your students, change it! Engage your growth mindset. Adapt to your context and needs of your students

## **TAKE A RISK!**

Research shows that learning is enhanced when students become co-creators in the process. Lasting change happens when meaning and knowledge are co-created through shared experiences. Invite students to create!
